

## **Job description**

### **Deputy Scientific Director**

---

StromaCare ([www.stroma.care](http://www.stroma.care)) is a leading company in the field of immunotherapy through tumoral stroma modulation, to treat solid cancers.

To support its organic growth, StromaCare is seeking a highly talented scientist for its deputy Scientific Director position.

The successful candidate is expected on the following missions at the interface between research and clinic:

- Coordinate the development and sub-processing of the pipeline of ongoing projects: preclinical to bioproduction,
- Propose new projects related to the sequel's internal expertise and opportunities to development,
- Establish and nurture partnerships with relevant stakeholders, especially academic labs and sub-contractors (CROs),
- Perform scientific monitoring, write scientific publications and attend scientific congresses of interest; contribute to the internal communication packages,
- Support and closely collaborate with the CSO on different assignments.

#### Qualifications:

The successful applicants will:

- Hold a PhD in immunology or immuno-oncology with at least 12 years post-PhD experience in either academic and biotech company, in the field of immunology and/or translational research,
- Demonstrated record of cutting-edge research and technical independence as evidenced by first or senior authored publications in peer reviewed journals,
- Demonstrated leadership, excellent relational skills and significant work capacity,
- Ability to work collaboratively with partners of various origins and natures around projects and ambitious goals,
- Show excellent oral/written communication skills (fluent English mandatory) and creative problem-solving.

#### **Application process**

---

The application must contain the following documents in English:

- 1 Curriculum vitae, including thesis title and date of defense.
- 2 A list of publications
- 3 Letter of motivation (~1 page), explaining research interests and expertise

Application documents should be sent to: [contact@stroma.care](mailto:contact@stroma.care)
